## POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

### College Environmental aims and objectives

- College is striving to develop the institution on a self-sustainable basis in the areas of power, water and cleanliness.
- The faculty, staff and students have to contribute collectively to develop an eco-friendly sustainable campus and disseminate the concept of eco-friendly culture to the nearby community, wherever possible
- Awareness about environmental issues among the students and employees including climate change is a trust area.
- Measure and reduce environmental emissions and carbonfootprint.

The Environment and Energy Usage policy document of Lala Rural College is to manage energy in such a systematic way so as to minimize its impact on the environment. The policy implies to exploring the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis.

### Policies:

- To assess energy usage and measure its impact on the environment.
  - Turn off unnecessary lights and use daylight instead during day time
  - Use LED or compact fluorescent bulbs as much as possible.
  - Turn off Computer when not in use. Whenever possible, shut down rather than logging off.
  - Switch off lights, fans in conference rooms, classrooms, lecture halls when they are not in use. Avoid the use of decorative lighting
  - Use the fans only when they are needed.
- To reduce local air pollution emission using bicycles, public transportation and use of pedestrian – friendly roads.
- To undertake tree plantation drive.

- To encourage use of advanced technology to minimize energy consumption, gaseous emission and noise
- To strengthen employees' and students' environmental knowledge and skills in order to improve own environmental performance
- To provide information and training opportunities on energy saving measures.
- To monitor and respond to emerging environmental and energy issues.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.
- To install solar panels for the generation of alternative energy.

This policy will be communicated with the students and employees via internal communication channels and will be made available to all the stakeholders on the institutional website. The environment and energy usage policy, objective and targets will be reviewed on the regular basis under the guidance of the principal of the college.

One Earth-One Home and we at Lala Rural College believe in conserving this home of ours for the coming generation. A responsibility which we human beings share and are obliged to follow for all living organisms in this world.
